Top Craft Tool, Inc.

Established in 1968 by Arthur & Margene Kimmen. We are a family business owned and operated by Gary & Lloyd Kimmen with a firm belief in high quality and total customer satisfaction.

Top Craft Tool has a 10,000 sq ft. facility in which we specialize in the building of tooling, fixtures, gaging, material handling, pick & go systems, special machines, automated systems, CNC machining, rework and production runs. We also have the capability of manufacturing prototype parts and test fixtures, along with detail machining work, CNC, Lathe and Mill.

We are Government/Military Approved
